Dariia Medvedieva

Technical Program Manager | Enterprise & Platform Delivery | Cross-Functional Execution

d.medvedieva@gmail.com | 470 641 3469 | Atlanta, GA | linkedin.com/in/dmedvedieva | dariiabear.com

SUMMARY

Technical Program Manager with 10+ years leading cross-functional program delivery across enterprise and platform environments. Experienced in lifecycle governance, risk mitigation, and metrics-driven execution, driving predictable and scalable outcomes.

SKILLS

Technical Program Management, Product Lifecycle Management, Enterprise Platform Programs, Production Systems Delivery, Operational Readiness, Cross-Functional Leadership, Program Governance, Phase Gate Reviews, Stakeholder & Executive Communication, Risk & Dependency Management, Metrics & Performance Reporting, Agile & Hybrid Delivery

EXPERIENCE

Independent Contractor   02/2024 – Present | Atlanta, GA
Technical Program Manager
- Led end-to-end launch of an e-commerce platform, aligning 6+ cross-functional stakeholders and reducing checkout friction, contributing to a ~15–20% improvement in conversion flow readiness prior to go-live.
- Structured phased delivery roadmap and execution checkpoints for a motorsport analytics platform, reducing scope ambiguity and improving feature delivery predictability by ~25%.
- Implemented risk tracking and delivery governance framework (milestones, risk logs, reporting cadence), decreasing coordination overhead by ~30% across stakeholder interactions.
- Standardized onboarding and service workflows, reducing manual intake effort by ~40% and enabling scalable client expansion.

Macy's (Contract via Grid Dynamics)   09/2022 – 02/2024 | Johns Creek, GA
Technical Delivery Lead
- Led cross-functional delivery coordination across 3 engineering pods supporting fulfillment and recommendation platforms serving millions of users, improving release stability and reducing regression leakage by ~30%.
- Introduced structured dependency tracking and risk escalation processes, improving on-time release rate from ~70% to 90% during peak seasonal cycles.
- Optimized validation workflows and release checkpoints, reducing release cycle time by ~25–30%.
- Increased validation coverage by ~35%, contributing to 20% faster defect resolution during sprint cycles.

Grid Dynamics (Clients: Google, Macy's, AEO)   10/2014 – 09/2022 | Kharkiv, Ukraine
Technical Delivery Analyst
- Supported large-scale search platform migration impacting millions of monthly users, aligning validation and integration readiness across backend and frontend teams.
- Reduced cross-team misalignment by ~25% by introducing structured documentation and change-tracking framework.
- Improved release cycle efficiency by ~30% through integration checkpoint coordination and risk management practices.
- Increased stakeholder visibility by implementing structured reporting cadence, reducing rework during delivery cycles by ~20%.

EDUCATION

M.S. & B.S. in Computer Science   09/2008 – 06/2014 | Kharkiv, Ukraine
National Technical University "KhPI"
Graduated with Honors

CERTIFICATES

Google Project Management Professional Certificate

Google Cloud Digital Leader Training
